<b>Validation</b> The website passes both the <b>HTML</b> and the <b>CSS</b> validation services at: <a href="http://validator.w3.org/">http://validator.w3.org/</a> with no errors  <b>Note :</b> You will not lose marks for the pipe character error in any <link> element generated by Google Fonts.	<b>-1</b>	<b>-3</b>
<b>Document Outline</b>  Page produces the request document outline check your page at <a href="https://gsnedders.html5.org/outliner/">https://gsnedders.html5.org/outliner/</a>	<b>-0.5</b>	<b>-3</b>
<b>Total</b>	<b>29.5</b>	<b>/32</b>

Comments:

This is well done.

Things to note:

- Please validate both your html and CSS
- Not all images have alt attributes!
- Pay attention to line-height - the spacing between lines of text.
- h1 headings should not be placed within section elements - they are best outside of them. Your document outline is a little wild.
